The Company has an employee's gratuity fund managed by the Life Insurance Corporation of India ("LIC").

The tax effect is calculated on accumulated timing differences at the year end based on tax rates and laws enacted or substantially enacted as of the balance sheet date.

In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only to the extent that there is virtual certainty that sufficient future taxable income will be available to realise such deferred tax assets. In other situations, deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future taxable income will be available to realise such deferred tax assets.

The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

Subsequently, if there is a change in the indication, since the last impairment was recognised, so that recoverable amount of an asset exceeds its carrying amount, an impairment recognised for an asset in prior accounting period is reversed.
